Dispose of empty containers by wrapping with paper and putting in garbage.
Store below 25°C (Air Conditioning) in a cool, dry place, away from direct sunlight. Store unused tablets in the carton.

exelpet®

CAPSTAR™ FOR MEDIUM AND LARGE DOGS

EXELPET® CAPSTAR™ Tablets are an easy to use oral treatment for the fast acting knockdown of adult fleas (*Ctenocephalides* spp) on dogs.

EXELPET CAPSTAR Tablets start working within 30 minutes of dosing.

DIRECTIONS FOR USE:

Dosage and Administration

Administer one tablet on any day when fleas are evident on your pet. Repeat on any subsequent day when fleas are again evident on your pet.

EXELPET CAPSTAR Tablets can be administered to puppies from four weeks of age if over 11kg.

EXELPET CAPSTAR Tablets can be dosed directly into the mouth, or can be given mixed in a small portion of your pet's favourite food.

APVMA Approval No: 53316/6/0507

This product can be used in conjunction with other flea and worm control products.

Should your pet continue to scratch during treatment, seek veterinary advice.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

Flea Control Programme

Effective long term flea control requires an integrated flea control programme to break the flea breeding cycle. An effective flea control programme includes all the following steps:

1. Treat all pets at the same time: Fleas can readily spread from one pet to another, so it is important to treat all cats and dogs in your household at the same time.
