FLEABAN® WATER RESISTANT 5 MONTH  
**FLEA COLLAR** FOR DOGS

**EXELPET® FLEABAN® Water Resistant 5 Month Flea Collar for Dogs**, will control fleas (*Ctenocephalides* spp.) that come into contact with your dog for up to 5 months.

**DIRECTIONS FOR USE:**

**This product should not be used on puppies under 3 months of age, or on sick or convalescing animals. Animals should not be allowed to chew the collar. This product should not be used in conjunction with other anticholinesterase insecticidal animal treatments.**

**Instructions**

1. Adjust collar for proper fit so that two fingers can fit comfortably between the collar and your dog's neck. Cut off and dispose of any excess length.
2. Replace the collar every 5 months or when effectiveness diminishes.
3. When collar is worn, check neck area regularly and remove collar immediately should signs of skin irritation occur.

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**Flea Control Programme**

Effective long-term control of fleas requires an integrated flea control programme to break the flea breeding cycle. An effective flea control programme includes all the following steps:

1. Treat all pets at the same time: Fleas can readily spread from one pet to another, so it is important to treat all cats and dogs in your household at the same time.
2. Treat your pet's environment: Treat your pet's bedding and where your pet frequents.
3. Maintain this flea control programme all year round, particularly throughout the warmer, humid months when fleas are most active.

Should your dog continue to scratch during treatment, seek veterinary advice.
