 FLEABAN® 4 MONTH FLEA COLLAR FOR CATS AND KITTENS

EXELPET® FLEABAN® 4 Month Flea Collar for Cats and Kittens, will control fleas (*Ctenocephalides felis*.) that come into contact with your cat or kitten for up to 4 months.

DIRECTIONS FOR USE:
This product should not be used on sick or convalescing animals.
Animals should not be allowed to chew on flea collar.

Instructions

1. Adjust collar for proper fit so that two fingers can fit comfortably between the collar and your cat's neck. Cut off and dispose of any excess length.
2. Replace the collar every 4 months or when effectiveness diminishes.
3. When collar is worn, observe neck area and remove collar immediately should signs of skin irritation occur.
4. Remove the collar when animal is wet or bathed and replace when dry.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

SAFETY DIRECTIONS: Do not allow children to play with the collar. Do not open blister pack until ready for use. Wash hands after handling the collar.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

Flea Control Programme

Effective long-term control of fleas requires an integrated flea control programme to break the flea breeding cycle. An effective flea control programme includes all the following steps:

1. Treat all pets at the same time: Fleas can readily spread from one pet to another, so it is important to treat all cats and dogs in your household at the same time.
2. Treat your pet's environment: Treat your pet's bedding and where your pet frequents.
3. Maintain this flea control programme all year round, particularly throughout the warmer, humid months when fleas are most active.

Should your cat or kitten continue to scratch during treatment, seek veterinary advice.
