11kg

MED DOG
WEIGHING
BETWEEN 11 - 23kg

LGE DOG
GREATER
THAN 23kg

This product controls fleas (*Ctenocephalides* spp.) using pyrethrin, a natural insecticide.

DIRECTIONS FOR USE

This product should not be used on puppies or kittens under 3 months of age.

Apply by lightly sprinkling all over your pet's coat then comb or brush into the coat. Remove excess powder by wiping the coat with a damp cloth in the direction of the lay of the coat.

Also dust your pet's bedding regularly. Repeat application weekly or as required. Natural pyrethrins provide a means of controlling fleas. However, a very small number of pets are sensitive to pyrethrins and may have an allergic reaction. In this event, consult your veterinarian.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

Flea Control Programme

This product alone is not sufficient to ensure complete freedom from fleas as your pet can quickly become reinfested with fleas from other pets or from the surroundings. To obtain maximum control of fleas remember to:

1. Treat all pets at the same time.
2. Treat your pet's bedding and the environment.
3. Maintain this flea control programme all year round, particularly throughout the warmer, humid months when fleas are most active.

Guarantee of Satisfaction: If you would like more information on controlling fleas on your cat and dog, or have any queries of any kind, or you are not completely satisfied with this product, please contact **EXELPET** Customer Enquiries. Your feedback is important to us. Phone or Post: **Australia:** Toll Free Phone 1800 806 391; Reply Paid 4 PO Box 153 Wodonga, VIC., 3689.

Or visit our website: www.exelpet.com.au

Dispose of empty container by wrapping with paper and putting in the garbage.

Store below 25°C (air conditioning).
