

Whipworm

Whipworm are not normally a problem in puppies under 3 months of age. In dogs over 3 months of age monthly treatment with **EXELPET EZY-DOSE Monthly Heartworm + Intestinal All-Wormer For Dogs** will control whipworm.

General Information

For pregnant bitches, treat with **EXELPET EZY-DOSE Monthly Heartworm + Intestinal All-Wormer For Dogs** at mating and before whelping, in addition to regular monthly treatment.

Fleas are the immediate hosts for tapeworm (*Dipylidium caninum*). Effective flea control will reduce the incidence of tapeworm.

EZY-DOSE® MONTHLY
**HEARTWORM + INTESTINAL
ALL-WORMER** FOR
DOGS

EXELPET EZY-DOSE Monthly Heartworm + Intestinal All-Wormer For Dogs has a wide safety margin and at the recommended dose are suitable for dogs of all breeds including pregnant and breeding bitches, stud dogs and puppies from 6 weeks of age.

Heartworm Prevention

Consult your veterinarian to confirm that your dog does not have heartworm before starting administration of **EXELPET EZY-DOSE Monthly Heartworm + Intestinal All-Wormer For Dogs**.

To provide your dog with ongoing protection from heartworm, treatment must be given every month, preferably on or about the same day. The prevention program may not be effective if a monthly treatment is missed. If the monthly treatment is missed by not longer than 7 days then re-start the programme immediately; if longer than this, contact your veterinarian immediately for advice.

It is important your dog consumes the entire required dose of **EXELPET EZY-DOSE Monthly Heartworm + Intestinal All-Wormer For Dogs**. If the full monthly dose is not given, then your dog may be at risk from heartworm infestation.

Hydatid Tapeworm

Hydatid tapeworm pose serious health risks to humans. Infected dogs can transmit hydatid tapeworm to humans.

Dogs should not be fed, or allowed to feed on raw offal from any species. Monthly treatment with **EXELPET EZY-DOSE Monthly Heartworm + Intestinal All-Wormer For Dogs** will control hydatid tapeworm.

Hookworm and Roundworm

In dogs over 6 weeks of age, monthly treatment with **EXELPET EZY-DOSE Monthly Heartworm + Intestinal All-Wormer For Dogs** will control hookworm and roundworm. For puppies less than 6 weeks of age, seek advice from your veterinarian for suitable alternative treatments.
