

2. Treat your pet's environment: Treat your pet's bedding and where your pet frequents.
3. Maintain this flea control programme all year round, particularly throughout the warmer, humid months when fleas are most active.

Should your pet continue to scratch during treatment, seek veterinary advice.

PALATABLE FLEA CONTROL TABLETS FOR SMALL DOGS, PUPPIES, CATS AND KITTENS

Given as an oral dose once a week, **EXELPET® Palatable Flea Control Tablets for Small Dogs, Puppies, Cats and Kittens** controls fleas (*Ctenocephalides* spp.) by preventing adult fleas from producing viable eggs and stopping the development of flea larvae.

DIRECTIONS FOR USE:
Dosage and Administration
EXELPET Palatable Flea Control Tablets for Small Dogs, Puppies, Cats and Kittens must be administered weekly, with food, at the following rate:

	Bodyweight	Tablets
Puppies and Kittens	2.5kg	1/4
Small Dogs and Cats	5kg	1/2
Dogs and Cats	10kg	1

The tablets can be crushed and placed in their food or given after feeding.

EXELPET Palatable Flea Control Tablets for Small Dogs, Puppies, Cats and Kittens is to be used weekly as an on-going treatment.

PALATABLE FLEA CONTROL TABLETS FOR SMALL DOGS, PUPPIES, CATS AND KITTENS

General Instructions

Before fleas are seen on your dog or cat
– Use **EXELPET Palatable Flea Control Tablets for Small Dogs, Puppies, Cats and Kittens** and continue weekly, all year round.

When your dog or cat already has fleas
– This product does not kill adult fleas. Therefore, dogs and cats already infested with fleas should be initially treated with **EXELPET CAPSTAR™**. Simultaneously treat your dog or cat with **EXELPET Palatable Flea Control Tablets for Small Dogs, Puppies, Cats and Kittens** for on-going protection. If your dog or cat becomes reinfested with adult fleas use **EXELPET CAPSTAR™**.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

Flea Control Programme
Effective long term flea control requires an integrated flea control programme to break the flea breeding cycle. An effective flea control programme includes all the following steps:

1. Treat all pets at the same time: Fleas can readily spread from one pet to another, so it is important to treat all cats and dogs in your household at the same time.
