

EXELPET® Indoor Outdoor Surface Spray is highly effective in the treatment of fleas, ants, cockroaches and spiders.

HOW TO USE

Fleas: Lightly spray all infested areas. Pets should be treated with a suitable flea control product registered for use on animals. **Cockroaches:** Spray thoroughly into hiding spaces, cracks and crevices until the point of run off. If hiding places are not directly accessible, spray barrier strips around them. **Spiders:** Spray spiders directly or their webs and in the crevices where they hide. Do not remove webs for a few days following treatment. **Ants:** Spray ant nests and areas infested with ants.

Flea Control Programme

Effective long-term flea control requires an integrated flea control programme. To ensure maximum flea control remember to:

1. Treat all pets at the same time.
2. Treat your pet's bedding and the environment.
3. Maintain this flea control programme all year round, particularly throughout the warmer, humid months when fleas are most active.
